ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

SEPT. 18-OCT. 1, 1982

CONTINUING EDUCATION

DENTISTRY

Facial Pain. Sept. 23 & 24.

Periodontics in an Era of Change. Sept. 25.

Oral Surgery. Oct. 1.

Facial Pain. Monterey, CA. Oct. 8 & 9.

Held in C 701, unless otherwise noted. For further information call x1101.

RADIOLOGY

CT of the Spine: Cervical, Thoracic & Lumbar. Fairmont Hotel. Oct. 7-9.

For further information call x5731.

PSYCHIATRY

Sexual Issues in Medical Office Practice. Cole Hall. Sept. 24 & 25.

Medical Psychiatry. Cole Hall. Oct. 16 & 17.

For further information call x77-256 or x77-555.

MEDICINE

Pulmonary Update. Miyako Hotel, S. F. Sept. 30-Oct. 2.

The Skin from A to Z: Tips on Practical Therapy & Office Techniques. Cole Hall. Oct. 2 & 3.

Urinary Tract Calculi & Infections. Golden Gateway Holiday Inn. Oct. 14-16.

Ergonomics: Man-Machine Engineering. Mission College, Santa Clara, CA. Oct. 20. For further information contact Joseph LaDou, MD, (408) 773-9000.

Topics in Emergency Medicine. Sheraton, Fisherman's Wharf. Oct. 25-29.

For further information call x4251, unless otherwise noted.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the period October 2-15, will be **Tuesday, September 21, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

(SFGH continued)

TUESDAY 28

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Fetal Alcohol Syndrome.* David Cox. Ped. *Lung Maturity & Prevention of RDS.* Philip Ballard, Ped. & CVRI. Carr Aud. 8:30 a.m.

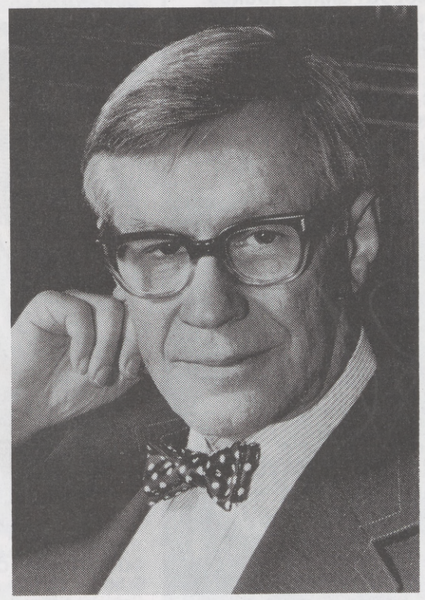
MEDICINE GRAND ROUNDS: *Therapy of Anoxic Encephalopathy.* John Luce, Med. & Med/Surg ICU, SFGH. Carr Aud. 11:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Aspects of Ergonomic Strength Testing.* David A. Thompson, Industrial Engin., Stanford. Carr Aud. 5:15-6:30 p.m.

THURSDAY 30

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Appendicitis.* Frank Lewis, Surg., SFGH. Rm. 4H40. 8:30 a.m.



David Saxon, president of the University of California since July, 1975, will retire from the position next July 1. He announced his intention to retire in a September 3 letter to Glenn Campbell, chair of the UC Board of Regents.

In his letter, Saxon said: "Over the past few months . . . I found myself quite unable to avoid confronting both the question of how much longer I ought to serve and its natural sequel, the question of what is next for me . . .

"After thinking very hard about these matters, I have decided to retire as president at the end of this academic year," Saxon continued. He said he had come to his decision "because it is clear to me that I have given to this great university of ours—to the university I love—all that is within me to give as its president."

In his letter, Saxon said he intends to return to the physics faculty at UCLA, probably on a part-time basis. He wrote: "I have also concluded that I would find it a rewarding and welcome change to resume my faculty role in my old department, the Department of Physics at UCLA. I joined that department as an assistant professor in 1947, more than 35 years ago, a fact which makes me its senior member in terms of length of service. It would be especially pleasing to me to be able to rejoin my old colleagues and to come to know my new ones."

In conclusion, Saxon wrote: "For me to have been the fourteenth president of UC is an honor beyond measure and beyond description. I shall always be grateful to the Board of Regents for having selected me in the first place and for the confidence and support it gave me during my tenure. I will, of course, be pleased to place myself entirely at the service of the Board as it carries out the search for my successor."

Saxon earned both his BS and PhD degrees from the Massachusetts Institute of Technology. In 1944, the year he was awarded the PhD, he joined the staff of the MIT Radiation Laboratory. In 1946, he became an associate physicist with the Phillips Laboratories in N. Y. and joined the UCLA faculty in 1947 as assistant professor of Physics. He became chair of the Physics Department in 1963 and in 1967 won the Distinguished Teaching Award.

In 1968, Saxon was appointed vice chancellor at UCLA, the number two administrative position. For the 1974-75 academic year, prior to assuming the UC presidency, Saxon served half-time as executive vice chancellor at UCLA with the other half of this time spent in systemwide administration as university provost.

Moffitt 8 East, the Neurology-Neurosurgery Unit, has moved to the ninth floor of Long Hospital making it the second inpatient care unit to move into the new hospital. Moffit 9 North/South moved into the seventh floor in August.

Future moves for 1982 include the ninth floor by October 11 and the tenth and eleventh floors before Christmas.

The fourth floor Moffit operating rooms will move in January 1983, with further expansion into Moffitt by June, which will eliminate the UC operating rooms. At the same time, Clinical Laboratories on the fifth floor will move part of their facility into Long; reconstruction of Moffitt space will bring together the Microbiology, Immunology, Bacteriology, Mycology and Virology labs.

In addition, Physical Therapy (first floor) will move in January; Radiology (third floor) in March with expansion into Moffitt by July; and the Pharmacy Department and Respiratory Care (ground floor) will occupy renovated Moffitt space in May.

By the middle of next year the EEG, EKG and EMG services will occupy space on the third floor of Moffitt, and patients will occupy Long's twelfth floor.

Long elevators are not operating at this time. To reach Long Hospital, individuals should use the Moffitt elevators to reach the appropriate floors.

Vol. 8 No. 17, Sept. 18-Oct. 1, 1982

HOSPITALS/CLINICS NEW EMPLOYEE POLICY, PROCEDURES & BENEFITS ORIENTATION. Veteran employees are urged to attend. For further information call x3022. N 517. 8:30 a.m.-noon.

RADIATION ONCOLOGY SEMINAR: *Ethics in Human Melanoma Cells After Treatment with Hyperthermia & Radiation.* Chris Streffer, Inst. Med., Essen, Germany. CED 200. Noon.

LABORATORY MEDICINE CORE CURRICULUM IN CHEMISTRY: *Photometry II.* George Gotelli, Clin. Labs. S 214. 2-3:30 p.m.

DEPARTMENT OF PHARMACY SEMINAR: *Pharmacokinetics & Pharmacodynamics of Triamerene Analogues.* E. Mutschler, Pharmacol., J. W. Goethe U, Frankfurt. HSE 336. 3 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *The Evaluation of Alternative Methods to Compute a Reference Range.* Stuart L. Beal, Biostat., Lab. Med. S 214. 4-5 p.m.

21 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Management of Benign Breast Diseases.* William H. Goodson, III, Surg. S 1364. 9 a.m.

SPECIAL JOINT PHYSIOLOGY/ENDOCRINOLOGY SEMINAR: *The Role of Renal Nerves in the Regulation of Renal Function.* Edward J. Johns, Physiol., U Birmingham, England. S 758. 10 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

LABORATORY OF RADIOBIOLOGY SEMINAR: *Phenoxy Acid Herbicides & Sister Chromatid Exchange—Studies In Vivo & In Vitro.* Kaija Linnainmaa, Industrial Hygiene & Toxicol., Helsinki, Finland. LR 213. Noon.

UROLOGY UROPHYSIOLOGY LECTURE: *Anatomy & Physiology of Bladder & Urethra.* Emil A. Tanagho. Urol. & Surg. M 460. 4:30-6:00 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

LIVER CENTER SEMINAR: *Glutathione Protection Against Microsomal Liquid Peroxidation.* Raymond F. Burk, Med., U Texas Hlth. Sci. Cntr. HSW 301. 5 p.m.

23 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Topic & speaker to be announced.* S 214. 9 a.m. Preceded by Patient Exams & Discussions: *Glaucoma.* John Hetherington, Jr., Ophthal. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Diagnosis & Management of Upper Urinary Tract Obstruction.* Barry A. Kogan, Urol. Second topic & speaker to be announced. S 664. 8:30 a.m.

MU CHILDREN'S REGISTRATION SEPT 23 & 24

Registration begins today for Millberry Union members and students for MU Children's Classes. Register at MU central desk, 8 a.m.-2 p.m. and 4-7 p.m. General registration begins tomorrow. For further information call x1800.

PULMONARY GRAND ROUNDS. M 666. 9 a.m.

HSW 302. 5:15-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Percutaneous Angioplasty: Indications & Results.* Ernest J. Ring, Radiol. HSW 303. 5:30-6:30 p.m.

24 FRIDAY

COMBINED ONCOLOGY/UROLOGY CONFERENCE. Richard Williams, Urol., VAMC; Theodore Phillips, Rad. Oncol.; Brian Lewis, Med. L 34. 8-9 a.m.

PULMONARY PHYSIOLOGY SEMINAR: *Bronchial Hyperreactivity.* Dean Sheppard, Med. S 758. 8:10-9:30 a.m.

COORDINATED CLEFT PALATE PANEL. School of Dentistry, Center for Craniofacial Anomalies. S 214. 9 a.m.-noon.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CLINICAL CONFERENCE OF THE LPPI CHILD & ADOLESCENT SERVICE: *Child Sexual Abuse: Clinical & Systems Perspectives.* Graeme Hanson, Ped. & Psychr. LPPI Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372-10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

RADIATION ONCOLOGY SEMINAR: *Update on Heavy-Ion Cellular Radiobiology.* Eleanor Blakely, Bio. & Med., LBL. CED 200. Noon.

* — Open to the public

EMPLOYEE HEALTH PROMOTION PROGRAMS

Starting today and running through November are several health promotion programs including Relieving Backaches, Interpersonal Skills for Women, How to Stop Smoking, Managing Stress at Work, and many more. Held at various campus locations at noon, 1 p.m. and 5 p.m. For a complete schedule of these free employee programs call x3206.

28 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY/REPRODUCTIVE SCIENCES GRAND ROUNDS: *Failure of Tubal Sterilization: An Epidemiological Analysis of Technique.* Philip Darney, Ob/Gyn. SFGH. S 1364. 9 a.m.

PERINATAL MORBIDITY & MORTALITY CONFERENCE. M 666. Noon.

PULMONARY GRAND ROUNDS: *Weaning from Mechanical Ventilation.* James Thompson, Pulmon.; Michael Matthay, Med. M 989. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. Noon-1:30 p.m. Special instructions for beginners 12:10-12:30 p.m.*

ALLIANCE FOR NUCLEAR RESPONSIBILITY LECTURE: *Physics & the Biological Effects of Ionizing Radiation.* Jacob I. Fabricant, Radiol. Part of the course "The Nuclear Age: Its Social & Medical Implications." Cole Hall. 7-9 p.m. Free*

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

LIVER CENTER SEMINAR: *Glutathione S-transferases: Role as Enzymes & Binding Proteins.* Thomas Boyer, Med, VAMC. HSW 301. 5 p.m.

30 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Clinical Aspects of Vertical Nystagmus.* Greer Gieger, Ophthal. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Neuro-Ophthalmology.* William F. Hoyt, Ophthal. & Neurol. 8 a.m.

PEDIATRIC GRAND ROUNDS. S 664. 8:30 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEURO-ONCOLOGY CONFERENCE. L 34, 12:30-2 p.m.

COMBINED HEMATOLOGY/ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY ROUNDS. HSW 303. 4-5 p.m.

HOSPITALS AUXILIARY EXHIBIT. On display in the lobby of Moffitt Hospital for the month of October will be: photographs by Mark Leder-Adams, watercolors by Vickie Low, acrylics by Angelo Sottosanto and oil paintings by H. J. Hamel. A portion of all proceeds benefits UC Hospitals & Clinics patients. For further information or to purchase or reserve work call x4906, 10 a.m.-2 p.m. or visit the Auxiliary Office, next to the Moffitt cashier, lobby of Moffitt Hospital.

CLINICAL CONFERENCES OF THE LPPI CHILD & ADOLESCENT SERVICE: *Mental Health Services to Court Dependents: Changes in Quality, Quantity & Delivery.* Jim Lamm, Psychr., Social Serv., City & County of S. F. LPPI Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

ANATOMY SEMINAR: *Developmentally Regulated Antigens of Early Mouse Embryos & Teratocarcinomas.* Carole Banka, Repro. Med., UCSD. HSE 1309. Noon.

COLE HALL CINEMA: *Ragtime.* Children under 14 $1.25; UCSF students & MU members $1.75; general $2.25. Cole Hall. 8 p.m.*

&SFGH

TUESDAY 21

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Malnutrition.* Norman Kretchmer, Ped. *Intestinal Parasites.* Paul Delay, Med. Carr Aud. 8:30 a.m.

MEDICINE GRAND ROUNDS: *Neurosyphilis.* Roger Simon, Neurol. Carr Aud. 11:30 a.m.

WEDNESDAY 22

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.

THURSDAY 23

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Blood Transfusion.* George Sheldon, Surg., SFGH. Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Funding for Medical Care: Impact on Public Sector in San Francisco.* Carol Emmott, Policy & Prog. Support, S. F. Dept. Public Hlth. Carr Aud. 12:30-1:30 p.m.

UCSF

NEWS BRIEFS

The VA Medical Center, San Francisco has been chosen as the site of one of ten new research projects on Agent Orange and other controversial defoliants, it was announced by the Veterans Administration in Washington.

Donald Vessey, UCSF assistant professor of Biochemistry will try to determine how the defoliant is broken down chemically by the body, how much of the defoliant is absorbed by human tissue and where the absorbed defoliant ends up in the body.

The new projects are supported for up to five years with VA research funds in excess of $2 million, and were selected from proposals submitted by individual investigators working in VA medical centers across the country.

Some 60,000 Vietnam veterans have so far complained to the VA of ailments they blame on Agent Orange or Agent White.

The Friends of Langley Porter Psychiatric Institute (LPPI) will hold their annual meeting and luncheon on Thursday, October 7 from noon to 2 p.m. at the Fort Mason Officers Club, S. F.

Guest speaker will be Leonard I. Pearlin, PhD, professor of Medical Sociology and director of the Department of Human Development and Aging. He will speak on "Adult Development and Mental Health."

This year's luncheon is dedicated to the memory of Jay A. Darwin, president of the Friends from 1977 to 1980, who died earlier this year. The luncheon also will honor Mabel B. Schine, retiring president of the organization, Jane B. Dunaway, a longtime friend of LPPI, and the Transamerica Corporation, for their encouragement and support of mental health in the Bay Area.

The Friends recently donated $2,700 to the Adolescent and Young Adult Inpatient Unit at LPPI to fund a three-day camping and rafting trip on the Klamath River in Oregon. The purpose of the trip is to enable the unit's patients to experience a new environment and to help them build self-esteem, self-reliance and mutual respect.

The first UCSF Staff Career Education Day will be on Friday, October 29, in the Millberry Union gym from 10 a.m. to 3 p.m.

Sponsored by the Staff Employee Council and the Personnel Department, the Career Day is designed to give staff employees an opportunity to learn more about the different kinds of jobs and career opportunities available on campus, to meet representatives and supervisors from various departments and units, and to identify resources which can be of use to employees in their career planning efforts.

Career Day also will explore what lies ahead for UC employees in terms of growth or "demand" occupations, the impact of federal cutbacks, budget problems and coping successfully with the current labor market uncertainties. There will be workshops, panel discussions and guest speakers, as well as information booths.

The Lupus Foundation of America, Inc., has awarded UCSF a $10,000 grant to support a research project being conducted by H. Daniel Perez, MD, at the Rosalind Russell Arthritis Research Laboratory, located at SFGH.

Perez, UCSF assistant professor of Medicine, will explore immune response abnormalities in a form of arthritis called systemic lupus erythematosus (SLE). SLE is a chronic disease in which the body's immune system seems to turn against itself. An estimated 100,000 Americans suffer from the disease which often strikes young and middle-aged women.

Two new postal machines have been installed on campus—the basement of Medical Sciences, next to the Incoming Mail Room, S B26, and on the fourth floor of the School of Dentistry, near Room D 4028.

Each machine dispenses stamps, prestamped envelopes and postcards at cost and is equipped with dollar bill changers.

If these machines prove to be useful to the campus community, additional machines will be installed. For further information contact Jon Gledhill, Mailing Division manager, at x5975.

The final campus blood drive for 1982 will be held Monday, October 11.

Campus blood donation sites are the main lounge of Millberry Union, 10 a.m. to 5:30 p.m., and the mezzanine level of the School of Nursing building, 8 a.m. to 4 p.m. Appointments can be made by calling the Moffitt Blood Bank at x4013. Individuals with appointments will be given priority.

The Associated Students of UCSF will again donate a raffle prize of a $35 gift certificate at the Washington Square Bar and Grill. The restaurant has matched the donation with a second $35 gift certificate. To be eligible, just deposit your blood donation receipt in the labelled boxes at either site.

The blood drive is sponsored by the Irwin Memorial Blood Bank and coordinated by the UCSF Tours and Speakers Bureau. For further information call x4394.

The UCSF-affiliated Gladstone Foundation Laboratories for Cardiovascular Disease, located at SFGH, will begin a study next month to determine whether third-grade children and their parents can learn to cut back on the amount of fat and cholesterol they consume and thereby reduce their risk of heart disease.

Called the "Special Program in Nutrition" (SPIN), the study is in cooperation with Millbrae elementary schools and will last throughout the school year. Some 60 students and 90 parents will participate—the first project of its kind to involve parents as well as youngsters.

Hardening of the arteries, or arteriosclerosis, is the number one killer in the U. S. today, according to Thomas P. Bersot, MD, director of the study and senior scientist at Gladstone. He adds that it is a life-long process that starts early, which is why it is so important to get youngsters to modify their diet.

Beginning Friday, October 1, the Millberry Union Residence Lounge will be available for rental by the campus community, 8 a.m. to 8 p.m. It accommodates 100 for a reception, 60 seated in classroom style or 40 seated for lunch or dinner.

Rental rates are $65 for five or more hours, $40 for less than five hours. A cleaning fee will be charged for all affairs plus an additional fee for cleaning after pot-luck affairs.

Arrangements to use the Residence Lounge can be made at the Housing Office, MU 112 or by calling x2231.

The Cancer Research Institute is currently in need of portions of freshly-removed spleens from patients undergoing splenectomy for immune thrombocytopenic purpura (ITP) for their research project aimed at clarifying the pathogenesis of this disease. Physicians who have any knowledge of such patients are asked to contact Raphael Stricker, MD or Marc Shuman, MD at x2201 (days) or x1421 (evenings).

A festive reunion and "celebration of life" picnic for children and their parents who were patients in the Intensive Care Nursery (ICN) or Pre-Term Labor Program, was held in Saunders Court recently.

Some 400 children and their parents attended in addition to UCSF physicians and staff members from the ICN and Pre-Term Program.

The picnic was supported by the Pediatric and Obstetrics, Gynecology and Reproductive Sciences departments, as well as private business from throughout the Bay Area. Some 1,500 patients were invited to attend—everyone that could be located in the Bay Area and Northern California, according to Nancy McCabe, coordinator of the Parent Support Group.

A marionette show, music, clowns and face painting highlighted the entertainment. Organizations donating their services for the day included Comity, Critter Crusaders and the S. F. Conservatory of Music.

The new MUNI official street and transit map is now available at half price ($.50) to the UCSF campus community through the Department of Transportation Services.

The new, foldout, pocket-sized map is easy to read and contains complete, up-to-date transit information including connections to other Bay Area systems. It features a complete S. F. street index, locations of schools, universities, theaters and museums, as well as an enlarged downtown area map.

For a copy of the new MUNI map, visit Transportation Services, Room A C14 or call x1511.

The PhD program in Human Development and Aging is accepting applications for admission in Fall 1983. Students holding at least a baccalaureate degree may apply; they should be trained in the social and behavioral sciences.

In addition to its core curriculum in adult development, the course will provide for specialization in several areas, including stress and coping, psychopathology and intervention in the latter half of life, and life cycle transitions. Courses in related programs will be held at UCSF and UC-Berkeley.

Students interested in applying should write: Admissions Coordinator, Human Development and Aging Program, 745 Parnassus Ave.

HONORS & AWARDS

John A. Starkweather, professor, Medical Psychology: Chair, Biomedical Library Review Committee, National Library of Medicine.

Jim Wood, campus transportation officer: Vice President, National Association of Vanpool Operators.

Donna M. Peehl, postdoctoral fellow, Microbiology & Immunology; **Anna M. Wu,** postdoctoral fellow, Biochemistry/Biophysics: Recipients of Leukemia Society of America two-year special fellowships for $37,000 each. Both were chosen for their distinct ability to conduct scientific research into leukemia and related disorders.

PUBLICATIONS

Holly Skodol Wilson, professor, School of Nursing, Mental Health & Community Nursing: Author, *Deinstitutionalized Residential Care for the Mentally Disordered: The Soteria House Approach* (Grune & Stratton, July, 1982).

Raza Aly, associate professor, Dermatology & Microbiology: Co-editor, *Bacterial Interference* (C. R. C. Press, Boca Raton, Fla., August, 1982).

IN MEMORIAM

Edwin Jack Wylie, internationally prominent surgeon whose pioneering work produced new and remarkably effective techniques for dealing with strokes and blood vessel diseases. A member of the UCSF faculty since 1948, he was serving as professor of Surgery, chief of Vascular Surgery and vice chair of the Department of Surgery. He contributed widely as an author to professional journals and textbooks and had been sought after as a lecturer and visiting professor throughout the world. He gained wide recognition as a pioneer in the area of peripheral vascular surgery, the specialty that deals with circulation to all parts of the body outside the heart, including such vital organs as the brain, kidney and intestine, and the extremities. Wylie is best known to the general public for treating baseball star J. R. Richards, the Houston Astros pitcher who collapsed with a stroke during a workout in July, 1980.

Theodore Tong, PharmD, has left UCSF and his position as program director of the S. F. Bay Area Regional Poison Control Center at SFGH to become professor of Pharmacy Practice at the University of Arizona, Tuscon. He also will direct the Arizona Poison Control System, which is a state-wide poison control network.

Tong was director of the highly-successful Poison Center since its establishment three and one-half years ago. He recently was elected a fellow of the American Academy of Clinical Toxicology and received the Chancellor's Award for Public Service for his efforts to make the Bay Area a healthier place to live.

The University Research Expeditions Program at UC-Berkeley invites all UC faculty, students and staff to join a research expedition team and help support important research in the natural and social sciences.

No special academic or field experience is necessary for most expeditions. Upcoming projects include Nuraghi Towers of Prehistoric Sardinia, and Archaeology from the Maya Classic Period.

For further information contact the University Research Expeditions Program, University of California, Berkeley, CA 94720 or call ATSS 8-582-6586.

The UCSF Child Care/Study Center is beginning to organize their Christmas Bazaar. All those interested in making handcrafted items to be sold at the bazaar are invited to attend a "work party" on Wednesday, September 29 at the center, 610 Parnassus Ave., from 6 to 9 p.m. Instructions also will be given on how to make items at home. Refreshments will be served.

Chair of the 1982 holiday bazaar is Sarah Segerstrom. For further information call x1616.
